

J&S Technical Information

Diesel Compression Tester - G6602CS

Introduction

The gauge and hose assembly of this unit are made in America. All the adaptors and box are English and made specially for us.

All adaptors come with a quick release coupling for easy fitting of the gauge once they have been installed.

Application

There are basically two places to test a diesel engine compression, either at the glow plug or at the injector. In some cases it may be possible to test at either.

The adaptors provided will enable you to test all cars and light commercials that we are aware of. Should new adaptors become necessary we will make these available as individual s as soon as we have them.

The applications shown below are a guide only and are by no means an exhaustive list.

Part No	Description	Thread Size
G6600	Gauge and Hose Assembly	
G6620	Nissan	20 x 1.5mm
G6633	Audi Citroen Daihatsu Fiat Ford Lancia Leyland Mazda Mercedes Peugeot Renault Rover Seat Vauxhall VW Volvo.	24 x 2mm
G6636	Daihatsu GM Isuzu Mitsubishi	10 x 1.25mm
G6637	Mazda Nissan Toyota	10 x 1.25mm Long
G6639	Land Rover	10 x 1mm Long
G6642	Audi Carbodies Citroen Fiat Ford Lancia Land Rover Leyland Peugeot Renault Rover Seat Vauxhall VW	12 x 1.25mm
G6660	British Leyland	14 x 1.25mm
G6675	Ford Stanadyne	Clamped Down
G6674	Clamping Plate For "I & K"	
G6676	2.5l Transit	Clamped Down
G6650	1.4 Peugeot Citroen Rover	10 x 1mm
G6616	Coupler & Elbow
