

J&S Technical Information

Cylinder Hone – L1500

Introduction

- Micrometer head for accurate feeding.
- Bottom guard plate to help prevent accidental damage caused by hitting the crank shaft.
- Universal joint action makes it easier to grind back cylinders.
- Clip on stones and wipers are easy to change.
- Wide range of cylinders can be worked on with four different rack sizes.
- Five different grits available
- Controlled pressure assures positive, adjustable contact through the full range.
- Operates with any electric drill.
